and Colonization, 1930.

SESSION 1930

HOUSE OF COMMONS

SELECT STANDING COMMITTEE

ON

AGRICULTURE AND COLONIZATION

PROPOSED AMENDMENTS TO BILL No. 12, AN ACT
RESPECTING GRAIN

No. 1

A. A. FRASER,
Clerk of the Committee.

OTTAWA
F. A. ACLAND
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1930

SELECT STANDING COMMITTEE ON AGRICULTURE AND
COLONIZATION

PROPOSED AMENDMENTS TO BILL No. 12, AN ACT RESPECTING GRAIN

Add:

2. (c a) "Co-operative association of grain growers" means an incorporated body which has power to handle and dispose of grain, whose members are exclusively or chiefly growers of grain, and which, by the terms of its constitution, is without power or is forbidden to distribute any profit by way of dividend.

Substitute:

2. (s.) "Private," when used with respect to an elevator, means an elevator which is either used by the manager exclusively for the storage or handling of grain belonging to him alone, or, when the manager is a co-operative association of grain growers, or is a company controlled by one or more such associations, is used by such association exclusively for the storage or handling of grain either belonging to it or produced by or received from some one or more of its members.

Add:

13. (2) When notice of intention to appeal from any decision of the Board has been duly given, the Board, or any judge of the court of appeal to which the appeal has been made, may direct a stay of the execution of the decision of the Board pending the judgment of the court of appeal, subject to such conditions as to the giving of security or otherwise as the Board or such judge may seem just.

Add:

18. (2) No rescission of any order under this section shall operate in favour of any persons by whom an appeal from such order has been taken to the court of appeal of any province as hereinbefore provided.

Substitute:

42. No grain that has been subject to scouring or washing shall be graded higher than No. 3, and no grain which has been treated with lime or sulphur shall be graded higher than No. 4.

Substitute:

53. Every railway company, and every other common carrier subject to the jurisdiction of Parliament, shall furnish free transportation on all its lines within Canada for the commissioners, the secretary of the Board and the principal officers in charge of the inspection service and of the weighing service under the Board, and free transportation within the Western Division for the assistant grain commissioners and within the Eastern Division for the principal inspection officer under the Board in that division.

Substitute:

68. Except as hereinafter provided, each car available for the shipment of grain at any shipping point for which a car order book has been issued shall, having regard to its capacity, be placed by the railway agent in accordance with the outstanding unfulfilled application recorded in such order book which bears the lowest consecutive number.

(2) If the Board is of opinion, by reason of special circumstances to be recorded by it, that the placing of cars as aforesaid would operate inequitably at any specified shipping point, or would prevent the immediate shipment therefrom of seed grain or of grain which has become or is in danger of becoming out of condition, it may direct the placing of cars at such point otherwise than as aforesaid but without discrimination, and in any such case the directions of the Board shall be complied with by the railway agent.

NOTE:—Subsection 2 of this section replaces section 15 (l).

Substitute:

83. No charges other than the maximum charges authorized by the Board shall be made by any licensee for any services performed by him pursuant to his licence unless such licensee desires to make lower charges than those so authorized and has, at least three days before making such lower charges, filed a schedule thereof with the Board, in which case no charges other than those specified in the schedule shall be made by such licensee until three days after such schedule has been withdrawn or superseded by another.

Substitute:

94. The operator or manager of any licensed elevator shall, upon payment of all proper charges in respect of the grain covered by any elevator or warehouse receipt, accept a surrender of such receipt for consolidation or division and issue in lieu thereof one or more fresh receipts covering the whole or part of the grain therein described as the circumstances require.

(2) The provisions of this section shall not apply to the division of any elevator or warehouse receipt issued by the operator or manager of a terminal elevator unless such operator or manager consents to such division.

Substitute:

96. Notwithstanding anything in *The Bank Act*, when an elevator or warehouse receipt is outstanding in respect of any grain delivered into an elevator, no charge or interest in the grain covered thereby, which affects the interest of the holder of the receipt, may be created otherwise than by the endorsement or delivery of such receipt to the person in whose favour the charge or interest is created.

(2) This section shall not apply to the creation pursuant to this Act of a lien for charges for the handling, storage or carriage of grain properly incurred under this Act.

Add:

102. (2) The loss, if any, under every policy of insurance issued pursuant to this section shall be payable to the holders of elevator or warehouse receipts for grain stored in such elevator as their interests may respectively appear, and the claims of such holders shall have priority to any claim by the manager of the elevator or by any assignee of such manager.

Add:

114. (2) Nothing in this section shall empower the Board to authorize the use of any form of cash purchase ticket or bill of receipt which does not specify the date of its issue, the name of the person from whom the grain is received, the gross and net weight of the grain delivered therefore, and grain thereof if agreed upon, or the mode of ascertaining the same, the charges to be made in respect of the grain and the terms upon which it is to be delivered or delivered.

Add:

116A. The holder of any elevator receipt who surrenders the same before the consignee's receipt is ready for delivery to him shall, upon his request, be entitled to receive from the person to whom such elevator receipt is surrendered a receipt for grain, specifying the date of its surrender, the date of issue, the character and number of the elevator receipt and the name and address to whom the grain therein described has been directed by the holder to be delivered, signed.

Add:

119A. The rates charged for the cleaning and storage of grain shall be the same at every licensed country elevator having the same manager.

(2) The Board may order that this section shall not apply to any licensed country elevator at which the Board is satisfied that lower rates than are charged at other elevators having the same manager are necessary in order to meet special competition.

Substitute:

125. (2) All western wheat received into any licensed semi-public or private terminal elevator and graded in any of the car-grades as specified in Schedule I to this Act shall be binned with grain of the same grade, and no such grain shall at any time be mixed with grain of any grade other than that in which it has been graded.

Substitute:

126. Upon the surrender of the shipping receipt or bill of lading covering any grain received into any licensed public or semi-public terminal elevator, accompanied by evidence of the payment of all haulage charges against such grain up to the time of its being so received, the operator or manager of such elevator shall issue in exchange for such shipping receipt or bill of lading, a terminal warehouse receipt which may be in such form as the Board may prescribe, but shall specify the date of its issue, the name of the person on whose account the grain has been received, the quantity and grade of the grain and the terms upon which it will be delivered out of the elevator to the holder of the receipt on payment of the charges accruing due in respect thereof.

(2) Upon the request of the person by whom there is surrendered a shipping receipt or bill of lading covering any such grain, separate warehouse receipts shall be issued in respect of each car-lot or parcel thereof.

(3) Upon the surrender for cancellation of any warehouse receipt, the same shall forthwith be plainly marked across its face with the word "Cancelled" followed by the date and the signature of the person to whom the same has been surrendered.

Add:

126. That when receipts shall be issued into the bins of a grain elevator by the manager of the terminal elevator to himself in respect of grain to which such manager has been entitled at the time it is received into the elevator and which is not graded, or when no receipts issued to others covering grain in such bins, the manager has become entitled thereto after it has been received into it upon the cancellation or supersession thereof, be replaced by new receipts issued, subject to such regulations as the Board may make in that behalf.

Add:

131A. Notwithstanding anything in the Act, the charges made for the cleaning, storage and handling of grain in a semi-public terminal or eastern elevator shall not be subject to change during any crop year.

Substitute:

135. If on any examination of the grain contained in any public terminal elevator and of the records of receipts and discharges of grain therein and therefrom, it appears that the holding of grain in such elevator has resulted in the transfer of grain from one or higher grades and that the quantity of grain of any grade discharged in a crop year and remaining in store at the end thereof exceeds by more than one-quarter of one per cent. the quantity which should have been discharged and is still in store, the excess above such one-quarter of one per cent. shall belong to the Crown and shall be disposed of as the Board may direct, subject as hereinafter provided.

(2) From such excess there shall, before its disposition, be deducted and paid to the manager of the elevator the quantity of any deficiency which may have contemporaneously appear in any higher grade of grain of the same kind, and out of the proceeds of the disposition of the balance there shall be payable by the Crown to the manager of the elevator the value, according to the spread of prices on the day of such disposition, of such part of such balance as is equal to the quantity required to compensate for any deficiency, not otherwise compensated for, which may contemporaneously appear in any lower grade of grain of the same kind.

(3) The provisions of the next two preceding subsections shall apply to such western wheat of the four grades first specified in Schedule One to this Act as is in or has been received into any semi-public or private terminal elevator.

(4) For the purpose of any calculation of excesses and deficiencies under this section, regard shall be had to any alteration of grade made on any appeal from an inspection officer disposed of in the meantime of the grain having been preserved pending the appeal.

(5) The Board shall have power to determine the mode of calculation to be adopted under this section with respect to grain which, on its receipt into the elevator, has been graded into any lower grade but may nevertheless, by reason of its subsequent treatment or otherwise, be properly binned with grain of a statutory grade.

Substitute:

136. (1) Upon the production to the Board by any person of written confirmation made subject to the aforesaid of the Board for the leasing of special bins for the binning in all western and eastern elevators as may be necessary for the preservation of grain received in grain bins supplied by such person

from the Western Development, the Lieutenant Governor in his discretion sixteen days after his assent to the Act, may make such contract, and thereupon take effect according to the terms of the said law, and the same inbefore contained but subject as hereinafter provided.

Insert:

136. (2) Nothing in this section of this Act shall apply to an elevator operator during the period of the first year of the operation of this Act, fifteen days of December, 1912, and thereafter the said law shall be permitted to take effect.

Add:

162A. In any civil or criminal proceeding to enforce any right given, or based upon the exercise of any right, imposed or arising under this Act, or any regulation made thereunder, or any statute, such proceeding may be stayed, and such proceeding will be stayed to prevent any award being made under any provision of the Act or under any regulation made pursuant thereto.

Substitute:

165. Nothing in this Act shall require any co-operative association of grain growers or any company controlled by such an association to take out any licence under this Act otherwise than as manager of an elevator belonging to such association or company.

SELECT STANDING COMMITTEE

SCHEDULE I
STATUTORY GRADES OF WESTERN GRAIN
RED SPRING WHEAT

Number and name of grade	Weight per bushel, in pounds	Variety of grain	Percentage of hard vitreous kernels %	Standard of quality	Maximum limit of foreign material or defects		Durum %	Otherwheat %
					matter other than cereal grains	Total including cereal grains %		
No. 1 Manitoba Hard	62	Marquis or equal to Marquis.	30	Sound and well matured.	Practically free.	Practically free.	1	1
No. 2 Manitoba Northern	63	Marquis or equal to Marquis.	45	Well matured grain, practically free from damaged kernels.	Practically free.	Practically free.	1	1
No. 3 Manitoba Northern	58	Red Spring Wheat of good milling quality.	50	Reasonably well matured, reasonably free from damaged kernels.	Reasonably free.	Reasonably free. Not more than about 1½%.	1	3
No. 4 Manitoba Northern	57	Red Spring Wheat of fair milling quality.	25	Reasonably well matured, reasonably free from damaged kernels.	Reasonably free.	Reasonably free. Not more than about 2½%.	1	9
or	55	Red Spring Wheat.....	Reasonably well matured, but excluded from preceding grades on account of frosted or otherwise damaged kernels.	Reasonably free.	Reasonably free. Not more than about 2½%.	1	10
				Rust or shrunken, but otherwise reasonably sound	Reasonably free.....	Reasonably free. Not more than about 2½%.	4	4

AGRICULTURE AND COLONIZATION

WINTER WHEAT

Number and name of grade	Minimum weight per bushel in pounds	Variety of grain	Percentage of hard vitreous kernels %	Standard of quality	Maximum limits of:-		
					Foreign material other than cereal grains	Total including cereal grains %	Durum %
No. 1 Alberta Red Winter.	62	Red Winter	60	Well matured, practically free from damaged kernels.	Reasonably free. Not more than 1%.	Reasonably free. Not more than 1%.	5
No. 2 Alberta Winter.	60	Winter	45	Well matured practically free from damaged kernels	Reasonably free. Not more than 2%.	Reasonably free. Not more than 1%	10
No. 3 Alberta Winter.	57	Winter	...	Reasonably well matured but excluded from preceding grades a/c of frosted or otherwise damaged kernels.	Reasonably free.	2	20

All winter wheat below 3 Alberta Winter in variety may be classified as the lower grades of wheat, i.e., wheat containing 1% or less.

APPENDIX C

SELECT STANDING COMMITTEE

Number and name of grade	Minimum weight per bushel in pounds	Variety of grain	Percentage of hard vitreous kernels %	Standard of quality	Maximum limits of			
					Foreign material other than dockage	Matter other than cereal grains	Total including cereal grains	Red Durum
No. 1 C.W. Amber Durum.	62	Mindum or equal to Mindum.	75	Well matured, practically free from damaged kernels.	Free.....	Practically free. Not more than about $\frac{1}{2}\%$.	Practically free. Not more than about $\frac{1}{2}\%$.	5
No. 2 C.W. Amber Durum.	60	Windum or equal to Windum.	75	Well matured, practically free from damaged kernels.	Free.....	Practically free. Not more than about $\frac{1}{2}\%$.	Practically free. Not more than about $\frac{1}{2}\%$.	5
No. 3 C.W. Amber Durum.	58	Amber Durum.	30	Reasonably well matured. Reasonably free from damaged kernels.	Free.....	Reasonably free. Not more than about 2%.	Reasonably free. Not more than about 2%.	10
No. 4 C.W. Amber Durum	56	Amber Durum.	—	Reasonably well matured. Not exceeding in any grade on a/c of frosty or otherwise damaged kernels.	Free.....	Reasonably free. Not more than about 2%.	Reasonably free. Not more than about 2%.	15
No. 5 C.W. Amber Durum.	54	Amber Durum.	—	Free from other than aged kernels.	Reasonably free.	Reasonably free. Not more than about 3%.	Reasonably free.	10
No. 6 C.W. Amber Durum.	—	Amber Durum.	—	Excluded from previous grades on a/c of damage or light weight.	Reasonably free.	Reasonably free.	Reasonably free.	10

RED DURUM WHEAT

All Red Durum and any other wheats (not including "Red Durum") irrespective of quality.

WHITE SPRING WHEAT

Number and name of grade	Minimum weight per bushel in pounds	Variety of grain	Percentage of hard vitreous kernels %	Standard of quality %	Foreign material other than dockage		Foreign material of cereals		Wheats of other classes	
					Matter other than cereal grains	Total including cereal grains	Durum %	Total %		
No. 1 C.W. White Spring.	60	Quality or equal to Quality.	65	Well matured, practically free from damaged kernels.	Free.....	Practically free.....	1	1		3
No. 2 C.W. White Spring.	58	White Spring Wheat of good quality.	50	Reasonably well matured, reasonably free from damaged kernels.	Free	Reasonably free, Not more than about 1%.	2	2		5
No. 3 C.W. White Spring.	57	White Spring wheat of fair quality.	25	Reasonably well matured, reasonably free from damaged kernels.	Reasonably free ..	Reasonably free, Not more than about 2%.	4	4		10

Note.—All White Spring wheat excluded from the preceding grades on account of admixtures, if stale, or otherwise damaged shall be classified in the Mixed Wheat grades according to the standard requirements.

SELECT STANDING COMMITTEE

SPECIFICATIONS OF GRAINS

Grade Name	Varieties	Var.
No. 1 Mixed Wheat.....	Red, or White Spring, or Winter.....	A mixture of Red or White Spring or Winter Wheat, any variety predominating, equal to 1, 2 or 3 wheat, and above Feed, excluded from any of the recognized grades on account of such mixtures. May contain Red Durum not exceeding 5%.
No. 2 Mixed Wheat.....	Red, or White Spring, or Winter.....	A mixture of Red or White Spring or Winter Wheat, any variety predominating, below No. 3 wheat and above Feed, excluded from any of the recognized grades on account of such mixtures. May contain Red Durum up to 10%.
No. 3 Mixed Wheat.....	Spring Winter, and Winter.....	A mixture of Spring or Winter and Durum Wheat, equal to No's. 1, 2 or 3 Wheat, excluded from any of the recognized grades on account of admixture of Amber Durum or Red Durum. Red Durum not to exceed 10%.
No. 4 Mixed Wheat.....	Spring, Winter and Winter.....	A mixture of Spring or Winter and Durum Wheat, below No. 3 wheat, and above Feed, excluded from any of the recognized grades on account of Amber Durum or Red Durum.
No. 5 Mixed Wheat.....	Amber Durum, Spring or Winter.....	A mixture of Amber Durum and Spring or Winter Wheat, equal to No's. 1, 2 or 3 Wheat, excluded from any of the recognized grades on account of Spring, Winter or Red Durum. Red Durum not to exceed 10%.
No. 6 Mixed Wheat.....	Amber Durum, Spring or Winter.....	A mixture of Amber Durum and Spring or Winter Wheat below No. 3 Wheat and above Feed, Red Durum not to exceed 10%.

MIXED GRAIN

No. 1 Mixed Grain—Wheat and other cereal grains and/or Wild Oats—Wheat predominating, excluded from any of the recognized grades on account of mixtures of other cereal grains and Wild Oats—reasonably clean.

No. 2 Mixed Grain—Rye and other cereal grains and/or Wild Oats—Rye predominating, excluded from any of the recognized grades on account of mixtures of other cereal grains and Wild Oats—reasonably clean.

No. 3 Mixed Grain—Barley or Oats and other cereal grains and/or Wild Oats—Barley or Oats predominating—excluded from any of the recognized grades on account of mixture of other cereal grains and Wild Oats—reasonably clean.

OATS
